Ready MAFS Mid/End of Unit	Ongoing throughout the year					X
Special Area Principal Approved Finals (PE, Health, Music, Art) Students last rotation	4/2-5/28				X	X

Reteaching and Retest Grading Procedure

- A student scoring less than a 60% on any assessment should be retested a minimum of one time.
 - MTSS should be considered for students regularly requiring retests.
- When a student retests, the higher of the two scores is counted in the gradebook. A retest assignment is created and all students who do not need to retest, get “no counted.” Of those students who took the retest, the lower of the two grades is marked as “no count”. This will assure that only one grade will count for each student’s average.
 - Retests will be the same form as the original test, but students will answer only the questions they answered incorrectly when available.
 - This may be a paper-based assessment.
 - Quarterlies will not be retested.
 - If less than 70% of your class scores a 70% or higher, it is the expectation those standards will be retaught using differentiated instruction without compromising the pacing guide.
 - Only initial assessment grades are graphed. **Retests are not graphed.**
 - This will encompass all subjects
 - Teachers are given the option to retest students that scored above 60%.
 - Tests will not be reset but you may retest students.
